CARDING

Jewelry & Accessory Carding

There are few industries more competitive than the jewelry business. When first impressions matter, take the necessary time to merchandise and market your jewelry to sell. Product packaging plays a vital role in attracting a consumer's attention simply because it's the first thing they see when shopping.

Jewelry carding is one of the most effective ways to promote your brand and sell your product at the same time. Carding is relatively inexpensive and is a space saver for countertop displaying.

CARDING

A&H offers the largest inventory of carding materials in the industry, with a wide range of design options, all customized for each program. Options include jewelry carding for earrings, necklaces, bracelets, rings, cards with hangers and rack holes, accessory carding for scarves, hair products, fashion products and more. We offer carding in a variety of materials including recyclable and environmentally friendly materials, up to 100% recycled plastic, a broad range of colors (customized to match virtually any Pantone), matte and gloss finishes, a wide variety of laminates, custom designs, hot stamp, embossed/debossed, unlimited punch configurations, and a wide range of sizes and thickness.

Over **72%** of American consumers agree that a products packaging has an impact on their decision to purchase.

are all the rave
these days!

Our Story

For over 50 years, A&H Worldwide has been the global leader in product packaging. What began with the invention of the traditional earring card, has since grown to one of the largest packaging producers in the world. From jewelry carding and boxing solutions to labeling, tagging and loss prevention packaging, A&H Worldwide remains the leader in the product packaging industry.
