EAS Source Tagging Solutions

EAS Source Tagging Solutions

Each of the **EAS Source Tagging Solutions** shown here represents a style of tag available in the product line and should be used as a reference for understanding the basic shape, minimum dimensions, and materials used in making each of the products. Upon ordering, all products* are customized to meet the color, size, and shape of the customer's specifications.

*PLEASE NOTE: Products listed with **A&H Numbers** have become standardized and are available without customization, exactly as they are listed in the description. These products remain a customizable item within the EAS Source Tagging Solution product line.
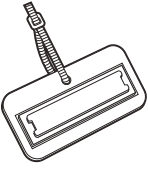

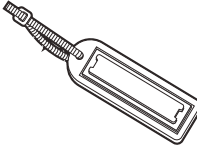

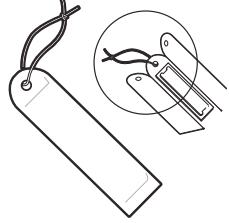

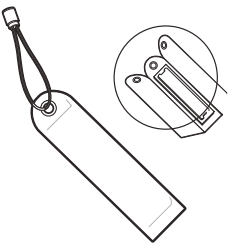

AM TECHNOLOGY SOLUTIONS

| JEWELRY SOLUTIONS			
PRODUCT	PRODUCT NAME	ITEM #	PRODUCT DESCRIPTION
	Extended Hanger Display Card	**EAS - EA01**	.020″ thickness plastic. EAS Sensormatic DR label hidden behind extended hanger. Custom colors, sizes, shapes, punches and laminates available. Minimum size of 2.0″ x 2.15″.
	Folded Jewelry Display Card	**EAS - FJ01**	.020″ thickness vinyl. EAS Sensormatic DR label placed between folded material, secured by aggressive adhesive. Supplied custom printed or hot-stamped. Custom colors, sizes, and shapes available. Patent Pending
	One-Piece Ring Solution	**A48-4**	Secures ring in upright position for excellent merchandise presentation. Doesn't interfere with customer trying on product. Solution allows ring to rotate in card so ring can't be removed by breaking cable tie. Custom colors available.
	Ring Stick	**EAS - RS01**	4.125" x .75" x .25" molded plastic. Clear band is threaded through ring and secured on both sides of tab. Tab is then inserted and locked into mechanism within stick. Custom pre-printed labels or raised lettering with hotstamping available. Maximum label size 3.25″ x .5625″.
