

Pouches

Jewelry pouches are a beautiful and unique way to package jewelry and accessories. The sophisticated look and useful design of your custom pouch will enhance your product and give your brand top of mind awareness for many years to come.

Pouches can be made from many different types of material including velvet, velour, satin, cotton, jute, organza, canvas, linen, suede, microfiber, leatherette and more. Pouches can also be customized with your logo and brand marks and can be very affordable. They are ideal for items that are more difficult to package such as large earrings, chunky necklaces, etc... They can be used with or without a box, although pairing your pouch with a box is recommended.

Pouches can be re-used for many things including:

- **Storage** - Protects your jewelry from dust, humidity and other harmful elements
- **Traveling** - Lightweight and convenient - protects your favorite jewelry during travel and easy to transport
- **Keepsake** - Keeps your name top of mind when branded
